The attachment that I provided (from Mai) that is the response to comment. She shared it as an office 365 file, or sharepoint file so you'll need to open and work from the email attachment and save it directly to her location.

The other document is the analysis that commenters were basing the comments on.

Thanks Rebecca,

Chris

Hi Chris,

I'm happy to help! I may not have time to start my review until the end of this week or early next week, which appears to work with Mai's email. But, let me know what kind of deadlines you'd like to work with.

Also, which document should I review...the one you provide me below or the one attached to Mai's email (7/6/2020 at 1:19pm)?

Thanks,  
Rebecca

Hi Rebecca,

I received this email this morning with a request to re-review the UIC program's cumulative impact analysis response to comments. I've started to go through that and am realizing that I'll need your help as these were primarily related to the modeling analysis we saw for the DEIS.

Would you be interested in taking a look? If not I'll do my best. I've finished looking through the AERMOD responses, and am at the CALPUFF responses. I have to remind myself of what we originally sent and how that does, or does not, look like what we have here.

Give me a call if you'd like to talk through things if you'd like.

Thanks,

Chris

Thank you Valois and Chris! Hope the both of you had a wonderful Fourth of July weekend.

Chris—thank you so much again for drafting the response to comments on the air specific questions in the cumulative effects analysis. If you could please take a look at p. 35-40 of the attached document where I highlighted in **turquoise**, the incorporated responses. I also flagged a couple of comments/follow-up questions for your review/consideration in turquoise as well. If you could please take a look to make sure the draft responses look okay and also, take a look at the comment bubbles, I'd appreciate it!

Please let us know if you have any questions. Thanks!

Thanks for the heads up! Happy to talk. I'm signing off for today and the weekend. Will be back at it on Monday.

Wish you both the very best,

Chris

Hi Chris,

I hope all is going well with you during this strange time and that you and your family have stayed healthy.

Mai Denawa in ORC is working on the response to comments for the CEA document. I had sent you the comments on the air section for which you provided responses. Mai has just a few follow-up questions. Just wanted to give you a heads-up that she will be contacting you.

Thanks for your help with this.
